MICROHOMES

THE RANGE 2026 · INTERIORS & EXTERIORS

Decor *Selection* Book

Five ready-made schemes, every finish we offer, and a selection sheet to bring to your design meeting.

HOW IT WORKS

Make it yours, one finish at a time.

Every MicroHome is built to order in our Chelsea Heights factory, so you choose the finishes. This book shows the options as they look in a real Urban One Bedroom.

01

Pick a scheme

Start with one of our five schemes. Each one has been put together so every finish works with the next.

02

Swap what you like

Love the scheme but want a darker floor? Swap any single selection from the full option pages.

03

Fill in the sheet

Note your choices on the selection sheet at the back. Bring it, photograph it or email it to us.

04

See real samples

We confirm every selection with physical samples at the factory before your build starts.
